■ Plan C Homesites

Plan C

Plan C's covered front porch greets guests with a large 3' wide entry door to the first floor, which features the jr. master suite and direct access to the 2-car garage. The modern stair handrail leads to the second floor, where the dining area splits the space between the kitchen and living room. The 10' ceilings, large windows, Juliet balcony, and open concept design creates a noticeable sense of space throughout the second level. On the third floor, you will find the master suite with another Juliet balcony and a spacious walk-in closet. Two additional bedrooms and a full bath are down the hall along with the conveniently located laundry area.
